TO OUR DONORS:

In 2022-23, we are marking the start of Campaign NEXT, our new record-setting comprehensive campaign opportunity. We are well on our way to meeting and exceeding our campaign goal and are very thankful to each donor and supporter.

The STC Foundation is first foremost devoted to the students at Southeast Technical College. We are committed to supporting all students, breaking down barriers and improving access. As an industry, higher education is a little turbulent right now and I do not see that changing in the near future.

There are interesting economic and demographic variables that are stressing the industry; however, the Foundation Board and I are elated to report that STC has growing enrollment, a student retention rate that is almost double the national average, and a 99% job placement rate. As an institution, we know we can always improve, however, our return on investment and low average student debt of our graduates continue to provide a quality investment for students and families.

The goals of Campaign NEXT align with the new STC strategic plan, will continue to assist the college in growing its financial aid assistance, support current and new innovative programs and services, and find dollars to support current and new capital projects. We are thankful for every donor dollar to the College and the Foundation, and we hope you will add your name to next year's annual report.

Cordially,

Stephen Williamson

Foundation Director
