Thank you for submitting your application to the Licensed Practical Nursing program here at Southeast Technical Institute! **Prior to starting the nursing program, students must successfully complete the following general education courses: English Composition, College Math, General Psychology, and Computer Essentials.**

Students can either take these courses at Southeast Tech or transfer some/all of these credits from a previous college or university.

Transferring Courses:

In order to transfer credits to Southeast Tech, students need to provide STI with an official, sealed copy of their transcripts from the Registrar of the institution. Only credits completed with a grade of "C" or better from an accredited institution are eligible for transferability. All transfer credits are subject to review and approval by STI's Registrar.

Taking General Courses at Southeast Tech:

Students may take some or all of the prerequisite courses at Southeast Tech by enrolling in the semester prior to the program start date. For example, this may mean taking the general courses in the Fall semester (August), and starting the LPN Program courses in the Spring semester (January).

Please check the boxes below indicating your plan for the prerequisite courses:

Based on the information above, the following statement best describes my program plan:

- I have completed the prerequisite courses and plan to start directly into the LPN program courses.
- I have not completed one or more of the prerequisite classes and plan to attend a semester before the LPN program begins.
