

RN AAS PROGRAM PREREQUISITE FORM

Please return this form to Southeast Technical Institute, 2320 N. Career Avenue, Sioux Falls, SD 57107
Phone: 605-367-6040 or 800-247-0789 Fax: 605-367-8305

Name (please print)

Student ID number

Thank you for submitting your application to the RN AAS program at STI! Prior to starting the RN specific courses, students must successfully complete the following general education courses: Chemistry, Physiology, Speech, and Social Problems **OR** Marriage and the Family. In addition, students must complete Microbiology by the end of the first semester of RN courses.

Students can either take these courses at STI or transfer some/all of these credits from a previous college or university.

Transferring Courses:

Chemistry and Physiology **MUST** have been completed within five years of starting the RN specific classes. Microbiology **MUST** have been completed within five years of starting second semester RN specific classes. In order to transfer credits to Southeast Tech, students need to provide STI with an official, sealed copy of their transcripts from the Registrar of the institution. Only credits completed with a grade of "C" or better from an accredited institution are eligible for transferability. All transfer credits are subject to review and approval by STI's Registrar.

Taking General Courses at Southeast Tech:

Students may take some or all of the prerequisite courses at Southeast Tech by enrolling in the semester prior to the program start date. For example, this may mean taking the general courses in the Fall semester (August), and starting the RN Program courses in the Spring semester (January).

Please check the boxes below indicating your plan for the prerequisite courses:

General Course

Please check one box for each course:

Fundamentals of Speech (SPCM 101T) Transfer this course Take this course at STI

Chemistry (CHEM 106T) Transfer this course Take this course at STI

Social Problems (SOC 150T) **or** Transfer this course Take this course at STI

Marriage and the Family (SOC 250T) Transfer this course Take this course at STI

Physiology (PHGY 210T) Transfer this course Take this course at STI

Required Course (By end of first semester RN courses)

Microbiology (MICR 231T) Transfer this course Take this course at STI

Based on the information above, the following statement best describes my program plan:

- I have completed the prerequisite courses and plan to start directly into the RN Program courses.
- I have not completed one or more of the prerequisite classes and plan to attend a semester before the RN program begins.
