

**Southeast Tech**  
Cardiac, Vascular, & Diagnostic Medical Sonography Program Overview  
**EXECUTIVE SUMMARY**

**Purpose:**

To provide the School Board an opportunity to learn more about the Cardiac, Vascular and Diagnostic Medical Sonography programs offered by Southeast Tech.

---

Southeast Tech has three AAS Sonography programs - Cardiac, Vascular and Diagnostic Medical Sonography. A medical sonographer is a skilled professional that performs diagnostic exams for physician interpretation. The sonographer uses specialized equipment which creates ultrasound images of structures inside the human body. The Cardiac, Vascular and Diagnostic Medical Sonography programs are accredited through CAAHEP – Commission on Accreditation of Allied Health Education program. Sonographers play an exceptional healthcare role to Sioux Falls, the region and beyond. Southeast Tech has articulation agreements with various universities for students to continue their educational and professional goals in pursuit of a bachelor degree.
