

Southeast Tech
Program Overview
EXECUTIVE SUMMARY

Purpose:

To provide the School Board information about the Mechanical Systems/Plumbing Technology program and Heating Ventilation Air Conditioning/Refrigeration (HVAC/R) program at Southeast Tech.

The presentation will provide the School Board information about the Mechanical Systems/Plumbing and HVAC/R Technology Programs at Southeast Tech and introduce the principals involved. The presentation will include program details, student demographics and career/employer information. The Mechanical Systems/Plumbing Technology program provides a 1-year diploma. The HVAC/R Technology program offers a one-year diploma (residential) or a two-year AAS degree (residential & commercial).

Administrative Recommendation to School Board:

To acknowledge the Mechanical Systems/Plumbing and Heating Ventilation Air Conditioning/Refrigeration (HVAC/R) Program Overview Report.
