

**Southeast Tech**  
Apprenticeship Update Report  
**EXECUTIVE SUMMARY**

**Purpose:**

To provide the School Board information regarding apprenticeship programs at Southeast Tech.

---

Apprenticeships are a workforce development tool being emphasized by both the State and Federal Government. Southeast Tech has, over the last two years, implemented three apprenticeships and one pre-apprenticeship in response to needs and requests from local industry.

This report will provide an update on individual apprenticeship programs and inform the board of a new program being proposed.

---

**Administrative Recommendation to School Board:**

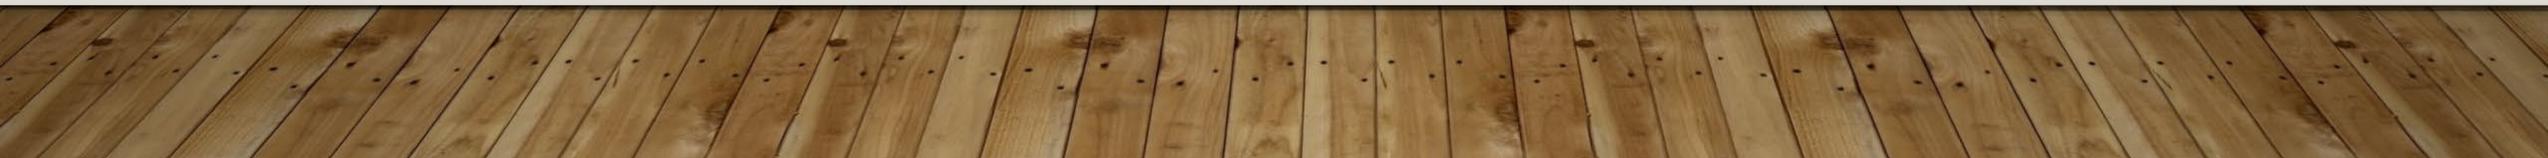

Acknowledge the Apprenticeship Update Report.

---

# Apprenticeship Update
