

Southeast Tech
Generation Rx Grant Report
EXECUTIVE SUMMARY

Purpose:

To provide the School Board information on the Generation Rx Grant awarded to Southeast Tech.

Generation Rx Grant:

Chelsea Reisch, Student Success Advisor/Coordinator of Student Activities, will provide an update on initiatives and events being organized under the Generation Rx Grant.

- Southeast Tech recently received the Generation Rx University Grant: Opioid Prevention and Education. This grant is made available through the Department of Social Service Services and Division of Behavioral Health. It is active Feb 2020-May 2020.
- The main goal of this grant is to educate our campus community on opioid misuse/abuse and prevention. We will provide education and resources to students, employees and community members.
- The grant offers funding for training and education activities at Southeast Tech. We have scheduled several events and activities for the spring semester under this grant including peer-to-peer trainings, table displays and educational campus events.
- Our first event took place on Feb. 26, 2020. This included a documentary showing to campus on the effects and dangers of opioid misuse and addiction.
- Southeast Tech will be hosting a campus speaker on March 24 at 7 p.m. David Brown will speak on his personal experience with opioid addiction and recovery.

Administrative Recommendation to School Board:

To acknowledge the Generation Rx Grant events and activities being planned at Southeast Tech during the spring semester 2020.

Generation Rx University Grant

Chelsea Reisch

Student Success Advisor/Coordinator of Student Activities
