

Policies and Regulations

Policy STC 506

Support Services

Emergency Management Program

In promoting the well-being of all students and employees of Southeast Technical College, it shall be policy to maintain a safe and secure environment in all STC facilities and on campus grounds.

STC adheres to the practices of the National Incident Management System (NIMS) and corresponding Incident Command System (ICS) and conducts annual training on its components.

The purpose of this policy is to maintain an emergency management program on the STC campus that will be activated when a hazardous condition, natural or man made disaster reaches or has the potential for reaching proportions beyond the capacity of routine operations.

STC President shall establish regulations to implement this policy in accordance with the NIMS and corresponding ICS protocols.
