

Policies and Regulations

Policy STC 625.1

Facilities Planning and Development

Supervision of Construction

The Sioux Falls School District Director of Operational Services or designee shall be directly responsible for the supervision of all new building construction, specifically:

1. Supervise all STC construction work in progress.
2. Coordinate the work of the general contractor and other contractors to facilitate the progress of the construction.
3. Inspect all construction as it progresses, with authority to stop work of any kind pending a final decision of the architect/engineer and School Board.
4. Work with contractor, architect/engineer, and Board to insure full compliance of the plans and specifications.
5. Coordinate with contractors and assist in the training of Operational Services personnel in the operation and maintenance of facilities and equipment.
6. Act as a liaison with City officials, fire department, and building and plumbing inspectors.
7. Initiate, schedule and prompt installation of electric, gas and water utility services.
8. Continuously study and review new construction methods, procedures, materials and installations to insure practical, economic results in planning new facilities.
