Support Services

Video Surveillance

Southeast Technical College authorizes the use of video surveillance equipment on Southeast Tech property as part of a multifaceted approach to promote the safety and security of students, staff and visitors while at work or participating in school functions and to help protect school property. Southeast Tech recognizes it must balance the rights of personal privacy with its duty to provide a safe site for learning and its responsibility to safeguard Southeast Tech facilities and equipment.

The implemented surveillance system should be designed and operated so that the privacy intrusion it creates is no greater than necessary to achieve the system's goals. Southeast Tech shall comply with all applicable state and federal laws related to video recordings when such recordings are considered for retention as part of a student's record, as determined by Southeast Tech and in accordance with the law.

Installation of camera systems is based on need and funding. Video cameras will be utilized only as approved by the President or designee.
