Facilities Planning and Development

Facilities Development Goals/Priority Objectives

The School Board recognizes the significance of providing facilities that assure adequate educational programming. A comprehensive approach to projecting and planning will be utilized, including the following:

- Enhancing the educational program needs of STC.
- Adhering to standards of construction that assure facilities are readily accessible to and usable by persons with disabilities.
- Partnering with the community, and developing new relationships of mutual benefit.
- Creating a functional and inviting atmosphere that promotes a positive connection with students, staff and community.
- Recognizing demographic changes within the region.
- Complying with community planning and zoning requirements.
- Working within STC's budget.
- Ensuring the safety and welfare of the public.
- Maintaining the relationship between the projected new facilities and those already in existence.
